

CLUB POLICY VACCINATION REQUIREMENTS TO ATTEND THE CLUB

There are strong indications, by the Victorian Government, that full vaccinations will be required to enter clubs and enable return to community sport. For entry to NSW bowls clubs from 11th October patrons must be fully vaccinated.

The health directives at this stage under the NSW Roadmap, state that entry will only be permissible to those who show proof that they are fully vaccinated or medically exempt (not applicable to under 16 years of age).

Our Board believes that the Victorian Government will implement a similar policy. Regardless, it is obvious that to play bowls within our cross-border community we will need to ensure that we can meet compliance with both Victorian and NSW government regulations.

The Club's Board believes that to enable the club to be a safe place for all to attend we need to implement the following policy:

That entry to the Wodonga Bowling Club will only be permissible to those who show proof that they are fully vaccinated or medically exempt (not applicable to under 16 years of age).

For Members: Once proof of vaccination or exemption is sighted your vaccination status will be updated to your membership record. You will only need to show proof of vaccination once.

All Members will have until Friday 5th November to provide proof of full vaccination or medical exemption unless the Victorian Government mandates the requirement by an earlier date.

If you would like more information in regards to vaccination certificates please follow the links provided
